Professional Experience

Finance & Accounting Consultant – DLC, Inc.

2022 – Present

Operate as a fractional finance leader across Controller and VP Finance-level engagements for private equity-backed and high-growth organizations, supporting M&A activity, financial transformation, and scalable reporting infrastructure.

Transaction Highlights:

- Buy-side and sell-side transaction support across SaaS, healthcare, and medical device sectors.
- Financial modeling, diligence, and integration support across transactions ranging from growth-stage to multi-billion-dollar valuations.

Select Engagements:

- dbt Labs, Inc. (~\$4B Valuation)
VC-Backed SaaS data infrastructure company.
 - Contributed to Fivetran merger transaction through financial reporting diligence, integration readiness, and stakeholder consideration payments.
 - Partnered with executive leadership, cross-functional teams, and external advisors to advance transaction execution and reporting alignment.
 - Supervised accounting operations and team of 15 as fractional Corporate Controller.
- Aspen Medical Products, LLC (\$140M+ Revenue)
Private Equity-Backed international medical device manufacturer.
 - Led post-acquisition integration and consolidated financial reporting across international subsidiaries (US, UK, Mexico).
 - Developed financial models, cash flow forecasts, and going concern analyses to support operational and strategic decision-making.
 - Directed transfer pricing analyses and profitability modeling across global entities.
 - Performed goodwill impairment analyses using valuation methodologies aligned with acquisition strategy.
 - Served as key stakeholder in ERP implementation, including data mapping, UAT coordination, and reporting design.
 - Strengthened internal controls and financial reporting processes across multi-entity operations.
 - Led and developed accounting team of 15 as fractional Assistant Controller.

Ryan J. Koretoff, MBA, CPA

- Prospect Medical Holdings, Inc. (\$700M+ Revenue)
Private Equity-Backed healthcare services company.
 - Enhanced regulatory compliance and internal controls through refinement of technical accounting policies and procedures.
- National CineMedia, Inc. (NASDAQ: NCMI) (~\$330M Valuation)
Publicly traded cinema advertising company.
 - Advanced financial modeling, liquidity monitoring, and debt covenant compliance.
 - Contributed to going concern analysis and cash flow management initiatives.
- Fluidmaster, Inc. (\$1B+ Revenue)
Privately held consumer products manufacturer.
 - Partnered on financial reporting, close processes, and variance analysis to improve operating visibility.
 - Strengthened accounts payable and receivable processes and controls.
- LeaseLock, Inc. (Series B)
VC-Backed SaaS proptech company.
 - Improved financial reporting accuracy through development of capitalization processes for internally developed software.
 - Strengthened internal controls aligned with technical accounting requirements.

VP Finance – Mobilemoney, Inc.

2021 – 2022

Privately held fintech company.

Led the finance function for a multi-entity company during a period of transition, restoring reporting integrity, strengthening internal controls, and improving financial visibility.

Partnered with executive leadership to diversify revenue streams, reduce concentration risk, and reposition the business for scalable growth, including evaluation of strategic initiatives and capital allocation. Oversaw finance strategy across cash flow, risk management, and performance improvement initiatives.

Director, Finance & Operations – Doctor Evidence, LLC

2015 – 2019

Private Equity-Backed AI-powered SaaS data research company.

Served as a senior finance leader within a high-growth SaaS environment, driving financial strategy, operational scalability, and data-driven decision-making.

Led enterprise financial modeling, forecasting, and performance analytics to support strategic planning and valuation, while partnering cross-functionally to improve revenue visibility and cost management. Directed ERP system development and strengthened internal controls, positioning the organization for scalable growth and audit readiness.

Corporate Controller – National Link, Inc.

2013 – 2015

Privately held ATM solutions and merchant services company.

Directed finance and accounting operations, overseeing financial reporting, cash flow management, and internal controls.

Led M&A initiatives, including acquisition analysis, financial modeling, and integration planning to support revenue growth and market expansion. Enhanced FP&A capabilities and introduced structured credit and financing strategies, improving financial performance, risk management, and operational discipline.

Controller – Supply Chain Management, LLC

2012 – 2013

Privately held business operations consulting company.

Directed accounting operations and financial reporting, establishing GAAP-compliant processes and improving accuracy and transparency. Strengthened cash flow management, cost control, and close processes to improve financial performance and reporting reliability.
